

The Graptor

Especially designed for children and bringing litterpicking to life, the Graptor litterpicker has dinosaur, or Raptor, imagery as part of the design.

The child-sized length also makes the clean-up safer, as it is more comfortable and less likely to lead to children picking up litter with their hands.

- 68 cm (27") length for ease and safety of use.
- Vivid design to capture childrens' imaginations

The Ranger

Rugged and durable, this lightweight litterpicker is the ultimate design for the toughest jobs.

Available with a straight or curved handle, you can choose the Ranger style to suit your needs. The one-piece unit is the simplest of our designs, yet the technology provides you with a comfortable handle, a wide jaw opening for larger items, and reflective elements to keep you visible if operating in poor light. The bright orange jaws have flexible traction to guarantee a brilliant pick up, from glass bottles to cigarette butts.

- 87cm (35") length to optimise user's reach when picking up litter
- Ranger Recycle Kit allows you to replace jaw ends and increase product lifecycle by 300%!

The Streetmaster

The Streetmaster is a versatile tool, popular with volunteer groups, local authorities and in the janitorial market. It is available in three different lengths, so you can choose the one best suited to you. The standard length is 82cm, with longer 93cm and 180cm (6 foot) options.
