

Tap Safe Specification Sheet

Secure, weather resistant protection for outside taps.

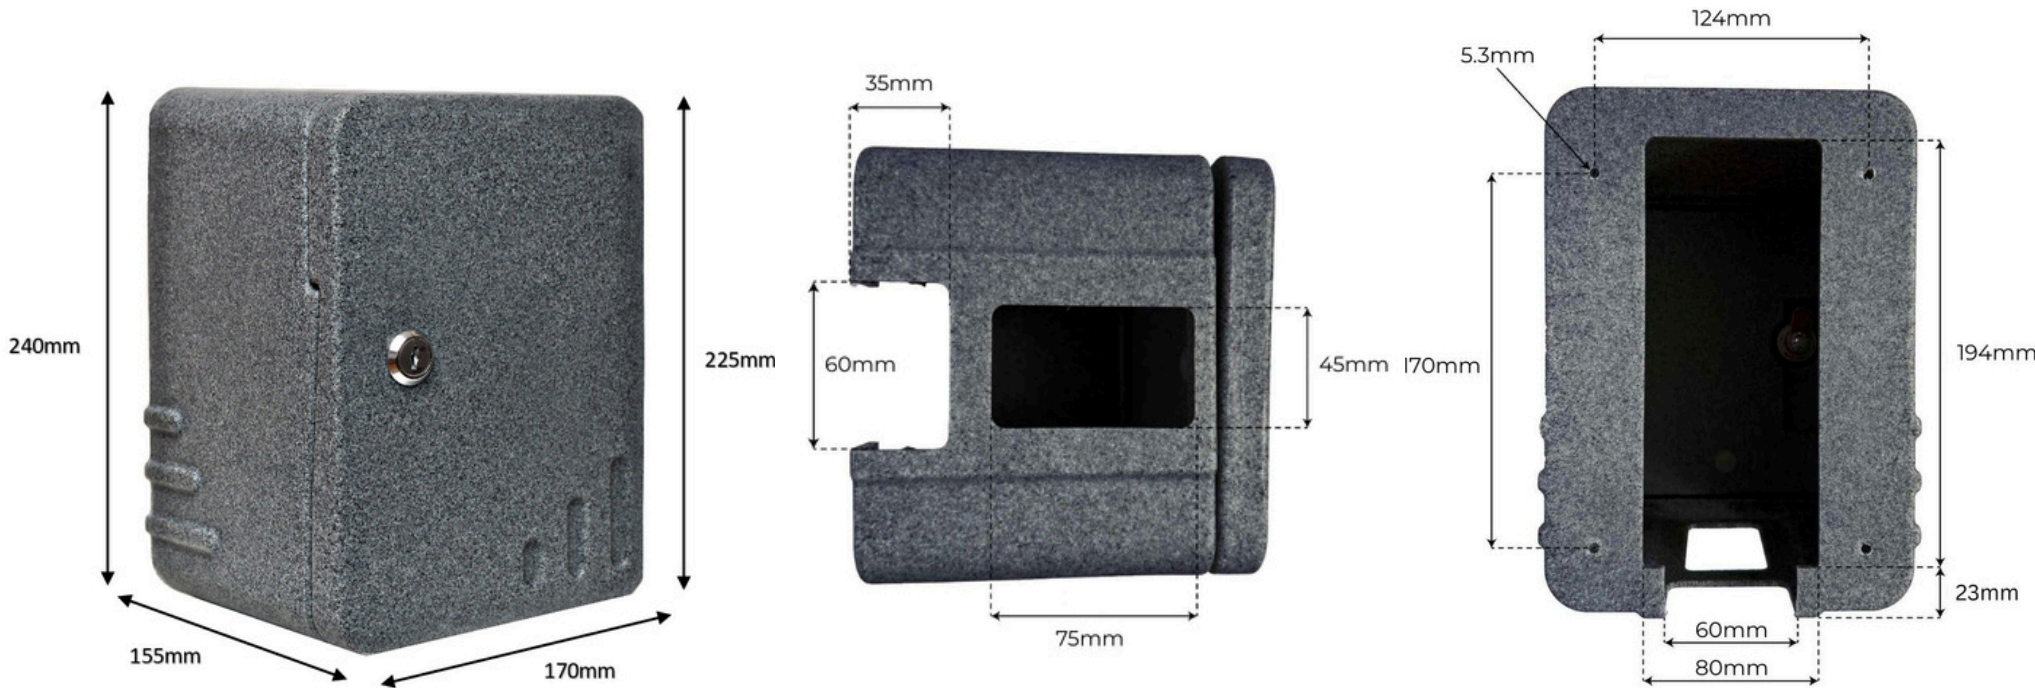

www.tap-safe.co.uk

Features

- **Secure, wall mounted design:** Prevents unauthorised water usage and provides tamper resistant protection.
- **Three locking options:** Uniquely Keyed, Keyed the same and Numbered Padlock. Key options are provided with 2 keys as standard.
- **Easy to fit, hose friendly:** Fits most standard UK taps and features a hose friendly aperture.
- **Durable and weather resistant:** Made from tough polyethylene, protects taps from frost and damage.
- **Attractive, low profile finish:** Compact design and attractive finish, fits in seamlessly with exteriors.
- **Perfect for any environment:** Ideal for residential, public, educational, commercial or industrial settings.
